All

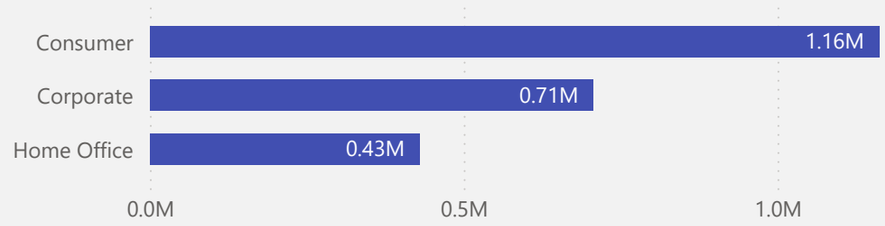
Sales by Segment



- Total sales reached **$2.3M,** generating **$286k profit** overall
- **Technology** leads profitability while **Furniture generates weaker margins**
- The **West region produces the highest sales (0.73$M)** followed by East
- **Consumer segment drives most revenue($1.16M)**
- Sales show **consistent growth over time,** with the highest peak in the most recent period

Product Profitability Analysis

- **Copiers, Phones, and Accessories generate the highest profits,** making Technology the strongest performing category
- **Binders and Machines receive the highest average discounts,** indicating potential over-discounting in Office Supplies.
- **Tables show high discounts but negative profit,** suggesting discounts may be harming profitability
- Several sub-categories such as **Labels, Paper, and Envelopes deliver the highest profit margins,** indicating efficient pricing and cost structures.
- Products receiving the **largest discounts do not necessarily generate the highest profits,** highlighting a potential pricing optimization opportunity.
